The Ant

The Story of Sulayman and the Ants

The Prophet Sulayman was blessed by Allah with the power to speak to and understand animals. One day, he was marching with his army of men, jinn and birds when he heard an ant warning the other ants. The ant told them to go home so they would not be crushed by the army.

Until, when they came upon the valley of the ants, an ant said, "O ants, enter your dwellings that you not be crushed by Solomon and his soldiers while they perceive not."

Surah Al-Naml 27:18

Sulayman smiled and was reminded of how Allah had blessed him! He made this du'aa

"My Lord! Grant me the power and ability that I may be grateful for Your Favours which You have bestowed on me and on my parents, and that I may do righteous good deeds that will please You, and admit me by Your Mercy among Your righteous slaves."

Did you know?

There is a surah called The Ant, Al-Naml.

Fun Fact! *****

Ants can lift up to 20 times their body weight! That's the same as a human lifting a white rhino!

The Prophet Sulayman عليه السلام remembered the blessings Allah gave to him and made dua. Write some of your blessings below and thank Allah for them.

ANIMALS IN THE QUR'AN posters

These posters are a fun way to research a specific animal and present your work in one place. They make great displays!

Printing on card makes them sturdy but paper is fine.

How Allah prepared the animals to be able to survive in their environment (for example a camel nostrils that can close to keep out sand)

You can draw or write in this section.

Interesting facts section allows for personalisation

ANIMALS IN THE QUR'AN *posters*

Here are some links to find information to research the ant. The websites are generally designed for kids but not all the material may be suitable. Please use your discretion.

Type	Insect	Height/length	0.2-2.5 cm
Weight	1-5 mg	Habitat:	Warm Regions
Nocturnal?	No	Body covering?	Hard, waterproof exoskeleton
Life Span	3-4 years	Arabic Name	النمل
Diet	Their diet includes fruits, milk of aphids, small insects, the sap of plants, and also insect eggs.	Life Cycle	Egg, larva, pupa, adult

How Allah prepared it for its environment

- Ants communicate using chemicals. They can alert others of approaching danger or can lead them to food sources.
- Some ants can make a huge ball with their bodies placed together and float in water if needed.
- They have powerful jaws which they can also use for biting if threatened.
- An ant's body is covered with a hard exoskeleton that protects it.

Interesting facts

- Ants can carry loads that are more than 100 times their body weight.
- The bullet ant, native to the Amazon forest have the most painful sting.
- Some queen ants can live for fifteen years and have millions of babies in their lifetime.
- Ants don't have ears and cannot hear. They sense sounds by feeling vibrations with their feet.
- Worker ants take super quick naps all through the day. They take about 250, one-minute naps all through the day.

An information sheets is provided.

This is useful for:

- Children who aren't independently researching yet.
- Making the activity completely offline
- Completing the posters quickly,
