THE REALITY ROUNDUP The Prophet's

Mosque Library

Some people visit Masjid An-Nabawi hundreds of times and never realise that the Prophet's Mosque Library is a few steps away. Established in 1352 AH, this respected library is a hidden gem for the coming to the Prophet's Mosque.

The library's reputation is well-deserved. thanks to its remarkable collection of handwritten manuscripts, ancient artifacts, and rare books. The library is a testament to the contributions of various rulers and scholars throughout history. with treasures including Holy Qur'ans and books dating

back to the fifth century AH.

The primary aim of this library is to provide visitors with an opportunity to expand their Islamic knowledge. It does so through a collection of over 180,000 books. What's noteworthy is that these books are available in more than 21 languages. ensuring accessibility to as many people as Possible. Whether you speak Arabic.

Spanning 2.744 square meters, the library is open every day, including public holidays. Its large reading room can comfortably accommodate approximately 300 people at a time, providing a peaceful and spacious nvironment for those seeking knowledge. The library's location on the western side of the mosque's grounds near Gate 10, also known as Bab Imam Bukhari, offe

The library also provides a digital section It is equipped with computers for visitors to browse and explore these electronic esources. Thanks to a free service provided by the Saudi government it's now Possible to access the digital library from anywhere in the world.

Do you want your kids to learn reading comprehension skills

but...

existing resources don't align with your values

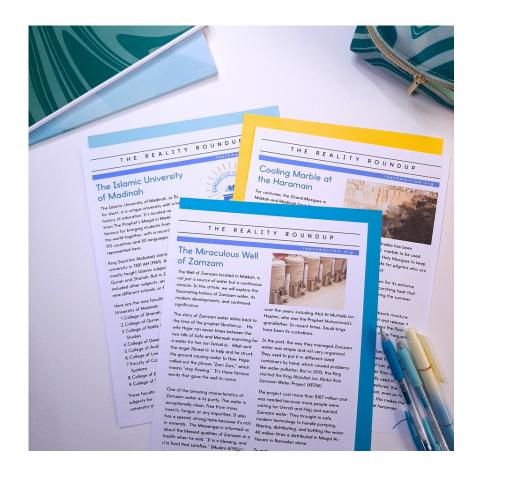

you don't have time to make your own

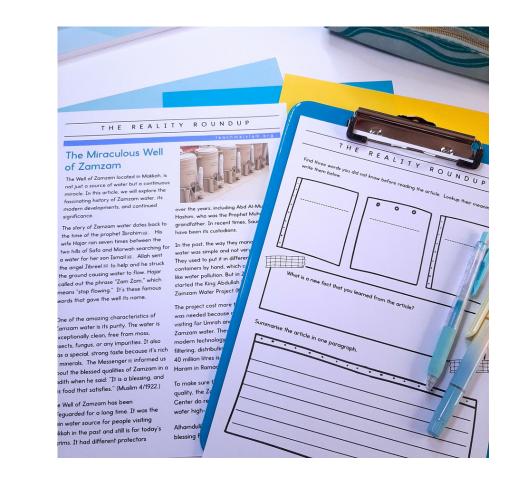

you want it to be fun, not a chore!

ALLAH'S AMAZING CREATION

Glass Frog Reading Comprehension

Glass Frogs Become More Transparent When They Sleep Subhandlahl Allah created transparent from the bit

The One Who created all that is in existence. He is AB5h. The Creater, the Inventor of all things, the Bestower of forms. To Hon belong the Best Nomes Starbh All Kents, on a

here do they hide them? They hide them in an gan in their badies called the liver. When they also and are active, the blood is travels round their adies and they become less transporent.

Scientists dan't know how they are able to store their blood and release it. For most vertebrates, this would cause their blog to clot (turn from liquid to a solid lump.)

Glass frogs are a sign of how great Allah is. Only He knows exactly how they can hide their blood cells and He is the only one who can create such a cool creature!

GLOSSARY

Camouflage a way of hiding or disgularing yourself Red blood cell a type of cell found in blood that carries anyor throughout the body
